When Uncle Sam Gets Through With Registrants, Those Out of Khaki Will Be Few.

Slackers in this city are becoming so scarce they will be classified with prehistoric animals before the war is over.
At least, this is the opinion of draft officials selecting another army of fighters out of the 540,000 young men here who are included in the second draft. Out of the 540,000 total registrants, \$6 per cent, of whom have already been classified, about 87,000 will be in what is known as 1 A class. That means they will become active coldlers. The

they will become active solders. The classification will be firsted in about a week or ten days. Although there have been reports that the first quotas of the new draft army are to leave before the end of this month, up to noon to-day neither Director of the Draft Martin Conboy nor David Asch and Charles A. Riegelman, his deputies, had received mobilization orders from Washington.

The examinations of the question-naires of the \$40,000 showed 25 per cent, or 124,200, were no class 1 A. Then the 124,200 were subjected to a paysical examination, which resulted in about three-tents of them being rejected. The seven-tents remaining is the \$7,000. New York City's last quota under the draft was \$8,000. The last of this selection will leave for camposity next week.

### IT'S YOUR STEP THAT ATTRACTS!

Says women pay too much heed to their face instead of their corns.

Watch your step! A brisk, lively step is what charms more than a lovely skin, but your high heels have caused corns and you limp a little. That's bad, girls, and you know it. Corns destroy beauty and grace, besides corns are very easy to remove.

Rid your feet of every corn by asking at the drug store for a quarter of an ounce of freezone. This will cost little but is sufficient to remove every hard or soft corn or callus from one'

A few drops applied directly upon tender, achy corn relieves the sorenes and soon the entire corn, root and all, lifts right out without pain.

This freezone is a gummy substan which dries instantly and simply shrivels up the corn without inflaming or even irritating the surrounding skin.

Women must keep in mind that cornless feet create a youthful step which ephances her attractiveness.—Advt.

#### **GUESTS OF HEARST** Political Significance of Palm Beach Meeting Camouflaged, PALM BEACH, Fla., Feb. 22.-More than one person who has talked to New York's Mayor, John F. Hylan, turing the three days since his arrival has taken away the impression that he is not as light hearted as he used to be when he came here, one and two years ago, as a Brooklyn Judge. Some people here believe that the Mayor came away to have a little time to work out to his own satisfaction without the interruptions inevitable in New York just what certain forces he has encountered are trying to do and how they are to be handled. #### CHILDREN NEED FOOD-NOT ALCOHOL

How careless it is to accept alcoholic medicine for children when everybody knows that their whole health and growth depends upon correct nourishment. If your children are pale, listless, underweight or puny, they absolutely need the special, concentrated food that only

gives, to improve their nutrition and repair waste caused by vouthful activity. During school term all children should be given Scatt's Emulsion because it benefits their blood, sharpens their appetite and rebuilds their strength by sheer force of its great nourishing power.
